

## PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Waseem Khan  
DOCKET NO.: 06-21317.001-R-1  
PARCEL NO.: 10-33-315-024-0000

The parties of record before the Property Tax Appeal Board are Waseem Khan, the appellant, by attorney Brian Maher with the law firm of Weis, DuBrock & Doody in Chicago and the Cook County Board of Review.

The subject property consists of a 48-year-old, two-story, single-family dwelling of masonry construction containing 5,152 square feet of living area and located in Niles Township, Cook County. Features of the residence include four and one-half bathrooms, a full-finished basement, air-conditioning, two fireplaces and a two-car attached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on four properties suggested as comparable to the subject. Based on the appellant's documents, the four suggested comparables consist of two-story, single-family dwellings of masonry construction. The improvements range in age from four to 64 years and in improvement size from 5,050 to 7,829 square feet of living area. The comparables contain from two and one-half to six and one-half bathrooms, a partial or full-unfinished basement, air-conditioning and from one to three fireplaces. Three comparables contain a multi-car garage. The improvement assessments range from \$6.42 to \$16.38 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

(Continued on Next Page)

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	9,902
IMPR.:	\$	93,929
TOTAL:	\$	103,831

Subject only to the State multiplier as applicable.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$103,831. The subject's improvement assessment is \$93,929 or \$18.23 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with two-story, four-year-old, single-family dwellings of masonry construction with the same neighborhood code as the subject. The improvements range in size from 5,158 to 6,543 square feet of living area. The comparables contain from three and one-half to five and one-half bathrooms, a full-unfinished basement, air-conditioning, a fireplace and a multi-car attached garage. The improvement assessments range from \$18.60 to \$19.03 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

Both parties submitted a total of seven properties similar to the subject in design and exterior construction but with many variations in living area and/or age. These seven properties have improvement assessments ranging from \$6.42 to \$19.03 per square foot of living area. The subject's per square foot improvement assessment of \$18.23 falls within the range established by these properties. The Board finds of the seven properties offered for comparison, four vary substantially from the subject in living area and four vary significantly in age. In addition, the seven suggested comparables are inferior overall to the subject in amenities in that none of the comparables have finished basements. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the evidence submitted by both parties does not support a change in the subject's current assessment.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
